

EASY DOCUMENTS®

A faster, easier way
to create and distribute
HR and Payroll documents

Easy Documents leverages the power of Easy Reporter to gather data and generate and distribute custom employee documents, correspondences and reports – all without programming, scripting or manual data manipulation.

Revolutionise how you share SAP® HR/Payroll data

Easy Documents allows even the least technical user to build, produce and distribute documents directly inside SAP.

1	Eliminate the need for SAPscript, custom ABAP, and manual mail merges.	2	Easily include logos, pictures or charts to create more meaningful, professional looking documents.	3	Automatically email documents to employees or managers.	FASTER & EASIER Complete creation and distribution of documents in hours instead of days or weeks.

Create powerful, professional employee documents and correspondence.

With Easy Documents, you can combine multiple reports in a single document and can easily include logos, images, and graphics. You can even pre-populate important regulatory, employment or benefits forms or PDFs to speed on-boarding, enrolment, or mass changes.

Whether you need to create performance review forms, compensation documents, benefits statements or any other employee document from SAP HR/Payroll, Easy Documents will save time, money, and valuable resources.
