

# EASY REPORTER®

Real-time SAP® HR/Payroll information - when and where you need it

**Easy Reporter** is SAP-certified and dramatically reduces the time and resources it takes to build, test, and distribute comprehensive, real-time SAP HR/Payroll reports.

## Real-time reports & analyses that your business demands

Easy Reporter allows users to create more meaningful SAP HR/Payroll reports in less time.

1

Easily create spreadsheet-like formulas to eliminate outside manipulation in Excel.

2

Comes equipped with over 150 time-saving, pre-written reports.

3

Automatically distribute reports via email or self-service portals.

**FASTER & EASIER**

Fast install and user-friendly interface means users begin creating reports in hours.

### Build, test, and distribute reports in minutes – with no ABAP required.

Easy Reporter is a certified SAP HR/Payroll reporting solution that provides singular, real-time access to SAP HR master data, payroll results and postings, time clusters, organisational management, and more. Easy Reporter resides inside SAP and its drag-and-drop interface allows users to access HR and payroll data and results that other query tools don't - without ABAP.

Reports generated with Easy Reporter are not only easy to create, but the insight they provide can be used to improve decision making, reduce processing errors, and increase overall SAP HR/Payroll data quality.
